Yes, the public notices should also be in the AR. I will put them in also.

One more thing – I think the public notices of availability of the AR should also be included in the AR. Is that correct? In any event, I'm not sure I ever sent you a copy of the original or the revised notices to be sent to the Records Center. They are attached. Once they are in the Records Center, I can include them in the package Dave prepares to update the AR in Silverton.

Thanks!

Cynthia

Subject: Action Memo Map - Sunnyside workings

Hello Larry,

Thank you for the letter commenting on the planned action at Red and Bonita. I would like to better understand the error you observed on the map depicting the Sunnyside mine workings. If

there is an image that you could provide that is more accurate, please feel free to send that to me or otherwise we can discuss this at your convenience.

I look forward to hearing from you in order to correct this information.

Sincerely,

Steve
